

Navigating EngageNY Math

First go to EngageNY.org

From this Main Page

hover over Common Core Tab

Click on Common Core Curriculum in drop down menu

Now you should be on the Curriculum Page

Click on Kindergarten Math

On left side -Curriculum Map, Click Module 5

Look to the right - Kindergarten Math Module 5

Scroll down to downloadable resources on the right

You will see a pinkish PDF - Full Module 5, click on the view PDF at the end to look for worksheets.

There are 342 pages in the document, Module 5, Lesson 13 is on page 172 of the document. Here you will find the whole lesson that I would have followed for a school math lesson. Worksheets are toward the end of each lesson. You should be able to print just the document pages you want for practice.
