REGULAR MEETING
7 p.m., High School**

Gearing up for safety!

From the Sept. 7, 2021 Board Meeting

Perry Oddi takes the wheel for Board of Education Tour

Transportation Supervisor Perry Oddi took the wheel of bus #123 Tuesday evening, picking up Board of Education members gathered at the High School for their monthly work session and taking them to see the new Middle School and High School drop off routes, and then over to the Transportation Building for a tour.

The short ride and ensuing discussion were an opportunity to demonstrate Lake Shore's transportation health and safety bus protocols during the pandemic. These include mouth and nose coverings, daily seating charts, and enhanced cleaning and disinfecting of buses after each run. Also, during regularly scheduled preventative maintenance, air filters are cleaned or replaced, Mr. Oddi pointed out.

Bus drivers and attendants must remain masked and cannot consume food or beverage at any time during a run, said Mr. Oddi. Also, all drivers and attendants, LPNs and mechanics must complete a self-health assessment before reporting to work, and pass the temperature check station at the main entrance.

When outside temperatures are above 45 degrees, their bus roof hatches or windows must be slightly opened to allow air flow. After each bus run, the driver and attendant broom clean each vehicle. Once it's clean and seat belts are straightened, they wipe down all touchable surfaces with EPA-approved disinfecting wipes. The trash bag is removed and replaced. And the entire bus interior is sprayed with an EPA-approved disinfecting mist.

The Health and Safety protocol sheet distributed to all transportation staff includes one final note: "Be patient with one another and be kind to one another."

DAY ONE & it's

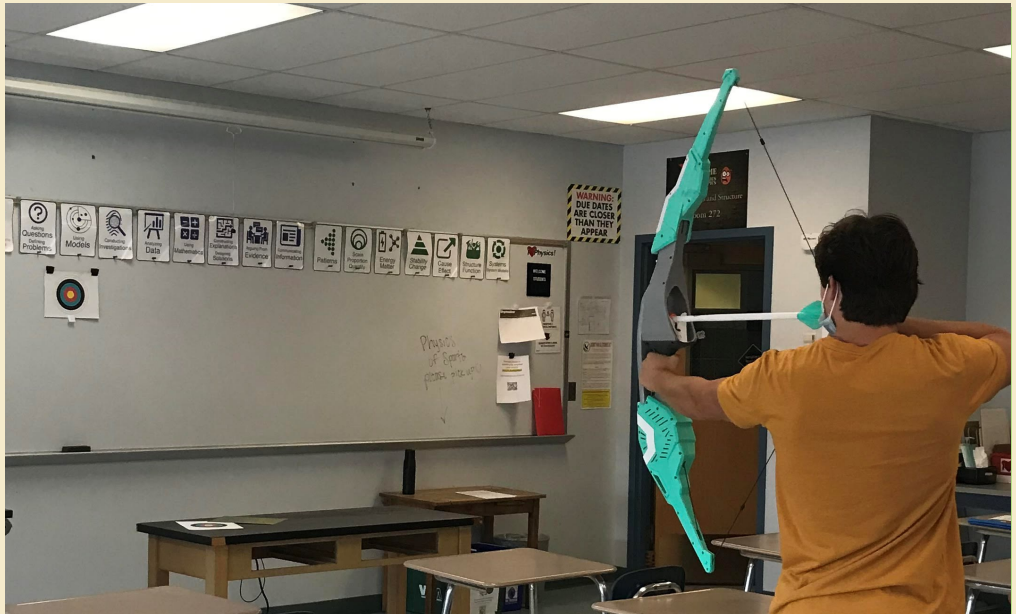

PHYSICS FIRSTS!

Last Wednesday, the first student day of the new school year, was Sydney Sweet's first class as the High School's new physics teacher.

In another first, she also is teaching the new Physics of Sports course. The student here is using a bow and arrow to shoot a target with carbon taped under to see how close he can get to the middle.

In her Regents Physics course, students created catapults out of simple materials. They were shown examples of catapults then constructed examples of their own, as shown below.

Welcome to Sydney Sweet (shown at right) and all of our new teachers! We'll have more features on new teachers as the year goes on.

'It takes a village ...'

ways to learn together

**There are
SOOOO-O-O many
fabulous opportunities in
Community Education ...
Don't miss out!**

**Check out our fall catalog
HERE!**

**And online registration
is now available
HERE!**

**If you have questions,
please call Teri
at 926-2270.**

**Hard copies of the catalog
are coming soon!**

ways to help together

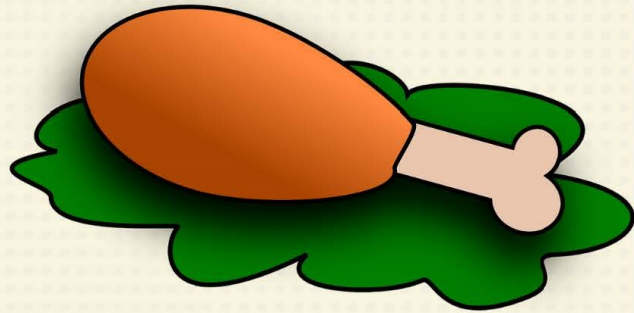

**Please consider
a gift to the
United Way
before Fri., Oct. 1.**

**Here's how:
Return your pledge form to
Christine Starks at the W.T.
Hoag Educational Center
OR
use your Lake Shore email
address to create
an account**

HERE!

**You can authorize
payroll deduction,
use a credit card,
write a check
or be billed.**

**As always, you can
designate where you would
like your
pledge to go.**

LAKE SHORE HIGH SCHOOL

CHICKEN BBQ

**A YUMMY MEAL
BEFORE OPEN HOUSE!**

**SEPTEMBER 15, 2021
PICK UP FROM 3:00-5:00
(OR SOLD OUT)**
