June 2019 Life Skills Newsletter

Dear Lake Shore Families,

We are fast approaching the end of a wonderful school year! We have some fun end of the year activities planned that will help us wrap up the school year in a fun way!

We had a fantastic time at Tiffit Nature Preserve last month and learned many facts about various animals and their habitats. The weather was sunny and beautiful for us that day! This month our last field trip of the year will be on Friday June 7th at Evans Town Park.

The class will bring a lunch or one will be provided by the cafeteria. We will take a count the week of the trip. We will bring some sports items to the park, and cards / board games to play at the shelter.

Our theme this month in Unique Learning System Curriculum discusses the topics of nutrition, recreation and leisure skills and is titled, "At the Amusement Park." The unit provides lessons and activities that build understanding of the importance of making good choices. A variety of amusement park scenarios are addressed within this unit.

These scenarios, which involve making healthy choices and choosing leisure activities that meet individual preferences, are written to be easily transferred to other settings and situations.

As we assist our young adults in the transition from school to work, it is necessary that they receive training on how to make good choices when nutrition and recreation-leisure topics are involved. Making good choices begins with knowing about your personal preferences as well as understanding what is healthy.

Summer Birthdays: June: Brandon Klee/ June 25
