

Name _____

Period _____

Science 8 Final Exam Vocabulary Review

Environmental Science

producer - _____

consumer - _____

herbivore - _____

carnivore - _____

omnivore - _____

decomposer - _____

abiotic factor - _____

biotic factor - _____

adaptation - _____

symbiosis - _____

renewable resource - _____

predator - _____

parasite - _____

Sound and Light (Waves)

refraction - _____

seismic wave - _____

transverse wave - _____

Doppler effect - _____

Electricity and Magnetism

magnetic field - _____

electromagnet - _____

static electricity - _____

static discharge - _____

series circuit - _____

parallel circuit - _____

Motion, Forces and Energy

velocity - _____

acceleration - _____

speed - _____

inertia - _____

friction - _____

gravity - _____

Heat and Matter

conduction - _____

convection - _____

radiation - _____

insulator - _____

conductor - _____

boiling point - _____

freezing point - _____

The Earth

continental drift - _____

constructive forces - _____

destructive forces - _____

subduction - _____

divergent boundary - _____

convergent boundary - _____

transform boundary - _____

Mercalli scale - _____

mineral - _____

igneous rock - _____

sedimentary rock - _____

metamorphic rock - _____

weathering - _____

mechanical weathering - _____

chemical weathering - _____

erosion - _____

abrasion - _____

Weather and Climate

ozone - _____

climate - _____
