Celebrating Success!

Class of 2014 Prepares for Graduation!

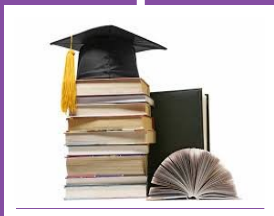

Congratulations to the class of 2014! We are all so proud of your accomplishments. You have successfully completed a major stepping stone that can boost you into a prosperous life.

As you move forward, be sure to reflect on your experiences, both achievements and setbacks, as there is a lesson to be found in both. Both of these experiences have made you the person you are today. You've fought hard to make it through the demands of schoolwork, the pressures of deciding what you want your future to be, then balancing all of that with maintaining your social life and taking enough adequate selfies to gain followers on Instagram! It is a sure guarantee that you will be tested further once you leave here but if you utilize your strengths, ask questions, and be kind to all people you meet in your path, you will surely pass with flying colors.

Be bold when you leave, do not accept mediocrity. Follow your passions and put your best foot forward, always. You never know where you will end up, but where ever that is, know that it is a reciprocation of your choices. Make the best of any situation, travel often, learn everything you can and stay true to yourself, you are your best inspiration.

As you continue on your path, know that you always have family from Lake Shore. Friends, teachers, and staff will always be rooting for you and reminding you of your best "Remember whens..." As you move forward; whether it's into the job market, college, or you're undecided, you have the skills and power to make it what you want. A wise kid once said, "What will you create to make the world more awesome?"

Congratulations again to the Class of 2014!!

Lake Shore Schools Spring Happenings

Students and their teacher from Silver Creek and Lake Shore High Schools attended the 1842 Buffalo Creek Treaty Commemoration on Friday, May 16, 2014. The event took place at Charles E. Burchfield Nature & Art Center, West Seneca.

Senior High School students visited the Mummies of the World Exhibit at the Buffalo Museum of Science. Students compared Indigenous burial practices throughout the world.

A group of SIMS (Success in Middle School) students listens intently as Kim Pagels, SNI Higher Education Coordinator, expounds on post-high school opportunities, from junior colleges to four-year universities. The fifth grade students had plenty of questions for Kim and her assistant Barb Weston, proving it is never too young to start piquing an interest in college.

Welcoming the Class of 2027!

Dates to Remember...
